

When the leak is not this obvious

...track it down!

TRAX is a clear non-toxic, non-residue, bubble-type liquid leak detector that finds leaks as small as one micron. It's formulated to produce long-lasting bubbles under "jobsite" conditions. It is oxygen compatible, requires no cleanup and is safe for the environment.

TRAX also meets the performance requirements of Military specifications:

MIL 25567 A Type I

MIL 25567 B Type I

MIL 25567 C Type I
